While in Michigan Mr. Speer made an extensive tour of the Michigan farming areas, including large sections of vegetable growing mucklands, also the fruit growing sections. He also visited and studied the operations of the large vegetable and fruit markets in Michigan such as the famous one at Benton Harbor where the grower sells directly to the buyer without the services of a broker.

Enroute home he visited his father, Hugh H. Speer, who has been an invalid for the past three years after suffering a stroke, and is now a patient at a Macon hospital. He also visited other relatives at Ochlocknee and other points in Georgia.

While Mr. Speer was on his trip Mrs. Speer visited her son-in-law and daughter, Mr. and Mrs. Ernest Boland and family at Athens, Ga. Recently she suffered a fracture of her left forearm in a fall at her daughter's home. She is now visiting her mother, Mrs. Y. A. Harris at Gainesville.

Blue Devils Face Stuart Tigers Sat.

With two victories in as many tries to their credit the Pahokee Blue Devils are expected to run into trouble when they travel to Stuart this Saturday night for a conference game with the veteran Tiger eleven.

Coach Webb Pell expects this to be one of the toughest games on the Pahokee schedule. He and his Blue Devils have great respect for Coach Bob Collins' 1955 edition of the Tigers, especially the rugged line and a fast backfield sparked by Fred Reddish who scored all four of the touchdowns in Stuart's 25-12 victory over Seacrest in their opener. Even in going down to defeat at Fort Pierce last Friday night the Tigers held the Eagles, rated as the strongest team in the conference, scoreless in the last half and practically gave the Eagles two of their three touchdowns through fumbles.

Halfback Pat Turbeville, who has developed into a capable scat back and ball passer, is expected to be expected to spark the Blue Devils' drives against the Tigers. Turbeville has shown up well both in the offense and defensive plays in the two games played so far. Tackle Ronnie Hitchcock and End Max Beverly are expected to continue their outstanding work in the Blue Devils' tough line which has allowed only one touchdown to slip by them so far this season.

Pell reports his men in good condition for tonight's fray with the exception of End Chat Clark. Earl Meredith may start at right end instead of Clark, otherwise the starting lineup will be the same as last week.

School Annual Staff Elected

Annette McIntosh has been elected by the Pahokee High School Senior Class editor-in-chief of the 1956 edition of the PHS year book, Devils' Trail, which is published annually under the sponsorship of the Senior Class.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Proposed sale or trade of county owned lands to take advantage of today's real estate markets and accelerate development of county parks was being considered this week by the county commission.

Commissioner Kenneth Foster suggested that a commission committee be named to survey all county owned lands to determine areas for which the county has no use and that these lands be put up for sale.

At the same time, Foster said, the lands should also be surveyed with an idea of extending the county's park system and where ever possible that presently owned lands be traded for areas that could be developed for park purposes.

Commissioner Roy Michael joined with Foster in his suggestion saying that since Palm Beach County is a leading resort area — "the establishment, development and maintenance of our parks is a very definite part of our economy."

In connection with other county lands, the board instructed its attorney to draft a request to the board of Bessemer Properties to lift restrictions on John Prince Park so that part of that area can be used as a Palm Beach Junior College site and for a county fair grounds. The land has been given to the county for park purposes only.

In still another action, Commissioner Lake Lytal asked that the

Town of Palm Beach be requested to cooperate with the county in gaining lands for establishment of a park on the north side of Southern Blvd. bridge causeway.

The board also authorized a trade of county owned lands near Delray Beach for a parcel near Boynton Beach which will be designated as a site for a new south county hospital. The designation of the site hinges on a freeholder election next month for creation of a hospital district.

In other actions this week the commission:

Adopted a resolution which changed the name of Selby Road to Forest Hills Blvd.

Approved relocation of county roads in Palm Beach Farms addition and at Jupiter Beach Park.

Approved State Turnpike Authority plans for construction of a bridge in the south section of the county on Clint Moore Road.

Approved a sub division plat in Canal Point known as the U. S. Sugar Corp. Addition No. 1.

Referred to the board attorney and engineer, a request from the Lake Worth City Commission for abandonment of a street in Worthmore Park.

Gave approval to a resolution which governs the sale of intoxicating beverages in the Belle Glade Housing Authority area.

Delay Comes On New Road-Bridge Issue

An eleventh hour change in policy by the State Development Commission promises to delay a proposed \$4 million dollar bond issue which had been planned to finance county road and bridge improvements.

The delay was prompted by a sub-committee report of the new state commission which will force the county to dismiss its financial agent and transfer this portion of the bond issue to the new state board.

The proposed bond issue has been in preparation for the past year with the firm of Sullivan, Nelson and Goss, West Palm Beach bond brokers serving as the county's fiscal agent. The firm has handled similar bond issues for the county in the past.

The commission Monday delayed action on adopting a new resolution offered by the state, in an effort to determine if a change in financial advisor would effect a saving to the county.

The development commission resolution sets out that the county must bear engineering, legal, fiscal agents costs and other expenses in connection with the issue—even though the bonds are never marketed.

Commissioners said under the private contract, the West Palm Beach firm for a one percent fee, has agreed to handle all expenses in connection with marketing the bond issue and that payment is contingent on a successful sale of the bonds.

Any official action by the state will be delayed until the development commission holds its next regular meeting in Miami on Oct. 7. The board this week made plans to attend the session.

Postpone Planting Of Palms On SR717

The proposed project of the Hibiscus Garden Circle to extend the row of royal palms along the side of SR 717 from Bacom Point south toward Chozen has been postponed because the circle has not been able to obtain permission from the State Road Department to make the plantings.

Announcement of the postponement was made at the circle's first meeting of the season held at the home of Mrs. Carl Kolstad Tuesday morning with Mrs. C. M. Todd, chairman, presiding, and Mrs. Don Hillier assisting Mrs. Kolstad as hostesses. Some 200 royal palm seedlings propagated for this project have reached the age where they are ready to be planted and these will be used in other beautification projects within the city, at school grounds, city parks and the like.

an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,860.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Turnpike Underway In Dania Area

DANIA, Sept. 15—With the awarding of another contract here today, approximately 82 miles of the 110-mile Miami to Fort Pierce Bob-tailed turnpike is now under contract for grading and draining the Florida State Turnpike Authority announced.

Dirt is now flying on more than 25 miles of the toll super-highway with contractors working around the clock. Within 30 days actual construction will be under way on another 25 miles.

Through the cooperation of the U. S. Engineers at Jacksonville and the assistance of the State Road Department, the Turnpike Authority was able to reduce the high level bridge across the St. Lucie Canal in Martin County from a vertical height of 80 feet to 55 feet which resulted in the saving of nearly \$2,000,000.

Bids for the substructure of the 35-foot level bridge over the St. Lucie Canal will be received by the Authority Sept. 29. The Authority has been advised that steel, which at present is so critical, will be delivered by May 1. This will permit completion of this bridge structure by the end of 1956.

All construction is now on schedule and the complete highway and bridge construction will be under contract by March 1, 1956, thus assuring completion of the turnpike by the end of 1956.

Benjamin Franklin, whose birthday is January 17, was expert in handling money and his advice is as found today as 200 years ago. All quotations here are from his booklet, "The Way To Wealth," published 1760.

Ben Franklin gives you some expert advice about Payroll Savings

"What though you have found no Treasure, nor has any rich Relation left you a legacy, Diligence is the Mother of Good Luck."

Have you ever wished you had \$1,000, \$5,000 or more—to buy a car, get a home, help you toward retirement? Today, it is actually easy to save such large sums! Because, today, you can have your saving done for you—with automatic diligence—through the Payroll Savings Plan.

"If you would have a faithful Servant, and one that you like, serve yourself."

Serving yourself means *keeping* some of the money you make each week and investing it, for yourself. Here's how: you just name a sum to your company's pay office—a few dollars or as much as you want. Each payday, that sum will be saved from your pay, before you get your check and invested for you in one of the world's finest investments, U. S. Series E Savings Bonds!

"Little Strokes fell great Oaks."

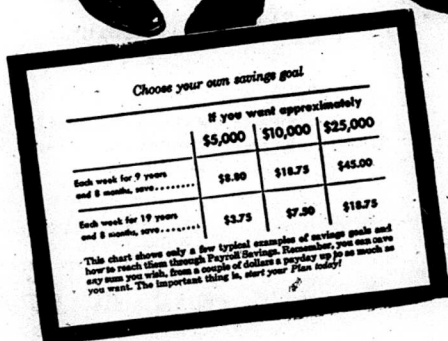

Because Savings Bonds earn good interest, they're soon worth more than the money you've invested in them. And how your savings mount up! Sign for as little as \$5.00 a week and in 9 years, 8 months, you'll have \$2,850 cash. In 19 years, 8 months, you'll have \$6,872!

"One To-day is worth two To-morrows, and farther, Have you somewhat to do To-morrow, do it To-day."

For your own sake, don't put off joining the 8 million Americans who are making their dreams come true through Payroll Savings. Sign up for Payroll Savings today. Or, if you're self-employed, invest in Savings Bonds regularly where you bank. If you want your interest as current income, ask your banker about 3% Series H Bonds which pay interest semiannually by Treasury check.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds. Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

Action On Bond Issue Delayed

Further negotiations between Palm Beach County and the State Development Commission on the county's proposed \$4 million bond issue will be delayed until Oct. 7 at Miami.

Meantime, based on action the county commission took Monday, the county will not sign a new resolution recommended by a State Development Commission sub-committee, which would force the county to dismiss its fiscal agents.

The state sub-committee recently announced it would not consider handling the bond issue if the county paid its own fiscal agent.

County Attorney Harry Johnston, this week advised the board to review the entire background of the bond issue with the new State Development Commission, and not to sign a new agreement unless the state agreed to pay fees which the county owes to agents which have been working on the bond issue.

Johnston said that the bond firm of Sullivan, Nelson and Goss had been working on the issue for more than a year. Also that a Louisville firm of consulting engineers had been engaged in work on one of the projects included in the bond issue.

Contracts with these firms, Johnston told the commission, were made in good faith and with the full knowledge of all state agencies concerned with the bond issue.

The county attorney said he had been advised that fees which the county will be required to pay the state under terms of a new agreement would probably not exceed one percent of the bond issue.

County Cautions Homesite Buyers

A warning against purchase of sub division homesite by metes and bounds descriptions rather than by lot, was sounded Monday by County Commissioner Lake Lytal.

The practice of selling home sites by metes and bounds, the commissioner said, is an attempt by subdivision promoters to evade and avoid meeting provisions of the county's plat laws.

Lytal had reference to county laws which say sub division plats must be approved by the commission and must meet certain specifications as to roads, streets, drainage and public utilities.

Lytal said the practice of selling by metes and bounds is an attempt by a promoter to put on a sub division as cheap as possible and later the people suffer because they have no adequate streets or drainage facilities.

The next move, the commissioner said, is for the homeowners to petition the commission for help — aid which can't be given because the county has not authority to spend public funds on private property.

Lytal urged prospective land buyers whose property will be described by metes and bounds, to contact the county engineer to learn what

county responsibilities are in such lands sales and what future responsibility the county will have.

The commission agreed that when the county adopts its general zoning law, then some control over the "wildcat" sub divisions could be exercised. Meantime the prospective home owner was warned to "buy and beware."

RICHARD P. ROBBINS,
County Judge.
E. B. Donnell,
Attorney,
the 12 day of Sept. A. D. 1955.

1. We'd like to show you some of the things that make the Ford one of America's finest cars... though it's one of the lowest-priced. Let's start with these long, low lines. Looks like it hates to stand still, doesn't it?

Let's take
a walk around
the NEW '56 FORD!

It's the fine car at half the fine car price!

4. The new 202-h.p. Thunderbird Y-8 will give you a new lease on driving enjoyment. It's available in Fordomatic Fairlane and Station Wagon models. You can have the "GO"-packed 176-h.p. Y-8 in Fordomatic Mainline and Customline models, or Ford's new 137-h.p. Six is available in any model.

5. Note the deep-center design of this new Lifeguard steering wheel. The wheel rim is over three inches above the post to help cushion the driver in case of an accident. It's a feature of new Lifeguard Design which Ford spent over two years developing... to give you added protection in case of an accident.

6. This Lifeguard cushioning for instrument panel and sun visors is optional. It gives you extra protection when thrown forward in an accident. You may also have optional seat belts to help keep occupants securely in seats.

7. Here's Ford's new Lifeguard door latch. It is another member of Ford's new Lifeguard family. A double-grip locking engagement reduces the chance of doors springing open under unusual strain of impact. Chances of serious injury in accidents are less when passengers remain in the car.

Well, that covers the important points. But there's a lot more. So we'd like to invite you to come in and see the new '56 Ford for yourself. Then you'll see the colorful new exteriors and interiors, the quality workmanship that is evident everywhere. Then you'll learn the full story. When you do, you'll know that Ford is the fine car at half the fine car price.
